

I am concerned to hear that the National Association of Broadcasters are trying to dictate what I listen to on my PAID subscription to XM Radio. The variety of channels and traffic and weather when I need it are services I paid for and I do not think that the National Association of Broadcaster should be trying to control the access to this information. I respectfully request and urge the FCC to reject NAB petition 04-160 and let XM Radio continue to provide it's listeners with the service we and programming we pay for and deserve.  
Respectfully,

Greg D. Scarbrough
